About Bassett Healthcare Network

Bassett Healthcare Network is a non-profit healthcare system dedicated to building healthy rural communities. We serve a 5,600 square-mile area covering eight counties in Central New York (roughly the size of Connecticut). Our organization is comprised of five hospitals, one stand-alone emergency department, more than two dozen health centers and specialty clinics, over 20 school-based health clinics, two long-term care facilities, an assisted living facility, a home health agency, and more.
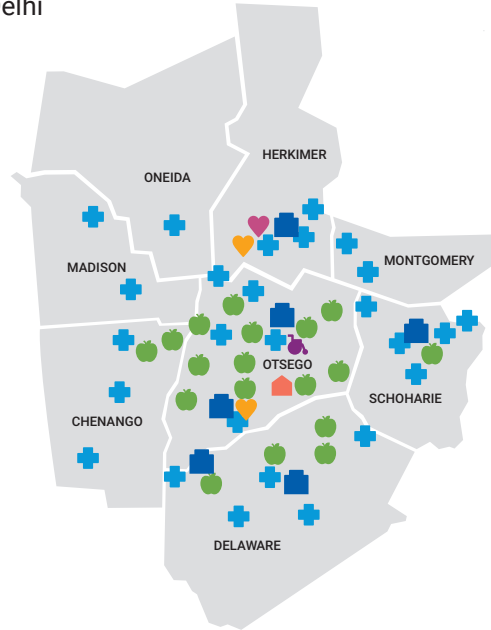

Across Bassett Healthcare Network, we care for our family, friends, and neighbors every day. Volunteers are a cherished part of our caregiver population – and we have many different types of opportunities available.

Where can I help?

Our volunteers serve primarily in our hospitals, emergency departments, cancer treatment centers, and nursing homes. Those services are available in:

- Cobleskill
- Cooperstown
- Delhi
- Little Falls
- Oneonta

BECOME A BASSETT VOLUNTEER!

Make a difference in the lives of patients.

Bassett Healthcare Network

How can I make a difference as a volunteer at Bassett?

Volunteering can be very personally rewarding, but did you know volunteers also provide measurable benefits for patients and hospital staff? Studies show that volunteers:

- Improve the quality of patient care and patient satisfaction
- Reduce anxiety of patients and family members
- Enhance the patient experience
- Create personal connections and relationships
- Reduce staff workload
- Increase the socialization of patients, staff, and the community

Join us and give a precious gift to patients, families, and our staff.

The Volunteer Process:

1. Apply Online using the QR code below.
2. Meet with the Director of Volunteer Services.
3. Receive your volunteer assignment based on your skills and availability.
4. Complete your orientation, obtain your volunteer ID and schedule your first day.
